

Education				
Qualification	Institute	Board/University	% / CGPA	Year
MBA Tech	MPSTME, NMIMS, Mumbai	NMIMS	2.96/4	2027
BTech (Computer)	MPSTME, NMIMS, Mumbai	NMIMS	2.96/4	2027
XII	Saraswati Vidya Mandir Junior College	HSC	83.17	2022
X	GES English Medium School	ICSE	80.50	2020

Certifications	
- Corporate Finance Institute - FMVA, BIDA - McKinsey's Forward Program - SEBI NISM-Series V-A Mutual Fund Distributors Certification - Duke's University Financial Management	- Google Advanced Data Analytics - IBM Project Management Capstone - DeepLearning.AI specialization Machine & Deep Learning - Bloomberg Finance and Spreadsheet Analysis

Core Skills	
- Financial Accounting and Markets - Portfolio Analytics & Time series forecasting - Data analytics & Visualization (Excel, Power Query, Macros) - Risk Metrics, Financial Modeling (Power BI, Tableau) - AI Solutions and Prompt Engineering	- Statistical Analysis and testing - Full stack web development - Analytical and problem-solving skill - API Integration & Automation - Python (Pandas, NumPy, Matplotlib)

Projects

Channel Finance Reports Management and Analysis system – 2026

- Built a full-stack finance automation platform using Node.js, React & Playwright to **automate bank report downloads, consolidation, monitoring and analytics.**
- Developed **real-time dashboards, OCR, scheduling, directory monitoring, local data management** and *AI-assisted data processing.*

Mutual Fund Analytics & Comparison system – 2026

- Built a real-time mutual fund analytics platform using **AMFI API data** with fund screening, comparison, historical performance return analysis and interactive visualizations
- Developed analytics for **returns and portfolio comparison** and **integrated AI-generated summaries for faster interpretation** of fund data.

Predictive analysis by Data Mining & Applications of AIML – 2026

- Built a hybrid financial market prediction system using **LSTM, Random Forest, technical indicators (RSI, MACD, Moving Averages) and fundamental ratios** for time series forecasting and trade signal generation.
- Implemented Python pipeline libraries with visualization dashboards, enabling faster insights into market trends and trade signals.

SME Credit Risk Assessment – Final Year B.Tech Project – 2025

- Developed a credit risk assessment model for Indian SMEs using financial and economic data, testing multiple machine learning models, analyzed key factors affecting SME credit risk and loan default, including debt levels, credit utilization and liquidity.

Summer Internships

Management Internship - JSW Steel LTD - 18th MAY to 5th SEPTEMBER, 2026

- Worked in the Finance & Accounts Department that included, Channel Finance (Credit Control), Project, Debt and Trade Finance.
- Developed a report analytics system** that automated renaming, merging and visualization, **saving 10 hours of manual work weekly.**
- Further developed** an application for **real-time mutual fund tracking and FD management** system - *treasury for faster decision making.*
- Using the tech and finance knowledge targeted to **generate proper reports, analysis and visualizations.** Added Excel *Power queries in excel, Excel for data analytics upgraded more with python* and UI using web development knowledge, **increasing efficiency of work by 40-50%.**
- Architected & streamlined the integration of complex financial datasets to improve data integrity across the entire F&A department.**

Technical Internship - Logixal Solutions - 19th MAY to 12th JULY, 2025

- Worked in the VTEX Web Development team on enterprise-scale e-commerce platforms.
- Migrated** high-traffic applications **from React to Next.js**, *improving SEO performance, page load speed and scalability*, reduced the page load time efficiency by ~35% also included **dynamic pricing, real-time inventory synchronization** and **persistent session states.**
- Integrated** interactive **3D product visualizations** using **Three.js**, enhancing customer engagement and product experience.

Achievements and Positions of Responsibility

- Received Letters of Recommendation from Logixal and the Vice President of JSW Steel for driving innovation and project involvement.**
- Neuro Web Award 2026, wirkungswerk GmbH & Co. KG** - Awarded this for one of the **best web designs** for my portfolio website meeket.in
- Strategist, Chyzzy** - Formulated premium apparel positioning for Chyzzy through market analysis and streamlined cross-team workflows, **reducing operational delays by 30%**, improving order fulfillment efficiency and enabling **acquisition of 3 additional clients.**
- President, IEEE Computer Society 2024** - Led a **50-member** team, organized **3 intercollegiate competitions** with **200+ participants.**
- M.D, FinDrome Finance Cell 2024** - Lead a **100+ member** finance community focused on financial analysis and fintech projects.
